

These are the updated COVID-19 protocols for the Knee Hip Shoulder Center

****If you have traveled outside of the USA please do not come into the office, unless you have self quarantined for 10 days, even if you have been vaccinated.**

****If you have traveled outside New England we still require a 10 day quarantine even if you have been vaccinated.**

We will continue to have all staff and patients wear masks and we will continue to social distance. We continue to limit the appointment to just the patient except if the appointment is for a preop physical or the patient requires some sort of assistance due to dementia or requires an interpreter. Exceptions will be on an individual basis. We will designate an added person on our schedule as a “+1” This schedule is given to the hospital front entrance daily.

If you have been exposed to a positive COVID-19 person in the 10 days prior to your appointment; **Please do not come into the office.**

If you are experiencing any of the COVID-19 **symptoms, please do not come into the office.**

Even if you have been vaccinated it is not 100% guarantee you will not get COVID-19 or be a carrier.

We feel it is crucial to keep our staff and patients safe and healthy.

Thank you for your understanding.
